 - 16) 'G' - Washington

If you need to get a visa or passport in Los Angeles we should probably leave on the 21st since these offices may be closed on Saturday.

I believe that four days is about the minimum we should spend at [redacted] since it usually takes that long for us to find out any personnel or political problems that may exist. These are more likely to be brought out during elbow bending sessions in the evening rather than at the factory during the day. The boys at 'G' are very anxious to have us visit since I understand that you have never been there. If we can stretch the schedule any, it would be nice to have an additional day [redacted] since there is much to see and do there.

I think perhaps I will come down to Washington a day ahead and check through security etc. and then we can leave from there together and meet Dick in Los Angeles. We probably should have a session with [redacted] in Los Angeles to be sure we all have the same party line.

Actually, after we set up the schedule we should adhere to it and arrive [redacted] after [redacted] on schedule, but thereafter we can make changes as we see fit since it will not be necessary to be met.

Sincerely,

4.5th
